## **POLICY STATEMENT ON PAYMENT OF INDIRECT COSTS ASSOCIATED WITH HEALTHCARE QUALITY IMPROVEMENT INITIATIVES**

**Twine Clinical Consulting LLC, in the course of doing business related to healthcare quality improvement (QI) initiatives, engages healthcare organizations that, for research oriented initiatives, stipulate that Indirect Costs be paid as a percentage of project costs.**

**It is the policy of Twine Clinical Consulting LLC to not pay Indirect Costs related to projects that we deem to rightly be classified under the heading of “QI initiative”. In our view, these projects, by virtue of their very nature, provide sufficient financial benefit (through the combination of improvement of healthcare practice quality and direct compensation) to the engaged healthcare organization to justify refusal, on the part of Twine Clinical Consulting LLC, to pay Indirect Costs.**
